January 13, 1988

INPUT has just released the **Annual Information Systems Planning Report**, a concise summary of 1987 research of information systems organizations.

### **I.S. ORGANIZATION ISSUES**

INPUT believes there are six "major issues" that I.S. managers must address, despite tight budget constraints, to succeed today. They include:

- |                  |                           |
|------------------|---------------------------|
| -Data Management | -End-user involvement     |
| -Connectivity    | -Development productivity |
| -Integration     | -Business contribution    |

The report covers the trends, issues, budget allocations, and technological developments that are adding, not only to the capabilities, but to the complexities of today's computing environment.

### **HOW YOU CAN BENEFIT**

Learn how I.S. organizations are meeting these challenges. What percentage of a budget will be dedicated to outside services and software? What percent of the applications development effort will be external?

This concise summary will give you the analysis you need to pinpoint your best areas for market and strategic planning. . . now and into the 1990's. Your plans will be based on facts, not assumptions.

### **ACT NOW**

The fee for this report is \$895. If you order before January 29, 1988, INPUT will include an industry analysis report of your choice. Fill in and return the attached order form today. Upon receipt of your check, we will immediately ship the facts you need to get the most profit for your marketing efforts.

Sincerely,

Jan D. Woolley  
Marketing Representative

P.S. Include your check with your order and save an additional 5% on the purchase price.

# RESEARCH STUDIES FROM INPUT

To: INPUT, 1280 Villa Street, Mountain View, CA 94041-1194, (415) 961-3300, Telex: 171407

**YES!** I need this research on Information Systems Planning. The fee for this report is \$895.

- ☐ If my order is received by INPUT before January 29, 1988, I will choose the following industry market segment.

### Industry Markets

- |   |   |
|---|---|
| <input type="checkbox"/> Banking and Finance    | <input type="checkbox"/> State and Local Government |
| <input type="checkbox"/> Discrete Manufacturing | <input type="checkbox"/> Insurance                  |
| <input type="checkbox"/> Process Manufacturing  | <input type="checkbox"/> Medical                    |
| <input type="checkbox"/> Retail Distribution    | <input type="checkbox"/> Utilities                  |
| <input type="checkbox"/> Education              | <input type="checkbox"/> Transportation             |
| <input type="checkbox"/> Federal Government     | <input type="checkbox"/> Other Industries           |

- ☐ I am interested in the full series of information systems planning reports, including the concise summary, for the fee of \$2,000.

### **TERMS OF PAYMENT**

Invoice will be sent upon receipt of endorsed order form; payment in full is required within thirty (30) days of invoice date (first-time buyers please note: available studies will be shipped immediately upon receipt of payment in full).

- ☐ Enclosed is check in the amount of \$\_\_\_\_\_ (including 5% discount for payment with order).  
☐ Bill my company on purchase order number \_\_\_\_\_ in the amount of \$\_\_\_\_\_  
*California clients: Please add applicable sales tax on 70% of purchase price.*

### **CONDITIONS AGREEMENT**

The information provided shall be used only by the employees of and within the current corporate structure of the client and will not be disclosed to any other organization or person including parent, subsidiary, or affiliated organizations without written consent of INPUT. INPUT exercises its best efforts in preparation of the information provided under this Agreement and believes the information contained therein to be accurate. However, INPUT shall have no liability for any loss or expense which may result from incompleteness or inaccuracy of the information provided. INPUT reserves the right to change or modify the content of the program in response to changing client requirements.

P.S. Include your check with your order and save an additional 5% on the purchase price.

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million, and the number of people aged 75 and over has increased by 1.2 million (Office of National Statistics 2000). The number of people aged 65 and over is projected to increase to 10.5 million by 2026, and the number of people aged 75 and over to 6.5 million (Office of National Statistics 2000).

There is a growing awareness of the need to develop strategies to meet the needs of the ageing population. The Department of Health (1999) has identified the need to develop a 'new paradigm' for the care of the elderly, which is based on the principles of 'active ageing' and 'positive ageing'. This paradigm is based on the idea that ageing is a process, and that people can remain active and healthy throughout their lives. The Department of Health (1999) has identified a number of key areas for action, including: promoting healthy living, preventing illness and disability, and providing care and support for the elderly.

The Department of Health (1999) has also identified a number of key areas for research, including: the role of the family in the care of the elderly, the role of the community in the care of the elderly, and the role of the state in the care of the elderly. The Department of Health (1999) has also identified a number of key areas for policy, including: the need to develop a 'new paradigm' for the care of the elderly, the need to develop a 'new paradigm' for the care of the elderly, and the need to develop a 'new paradigm' for the care of the elderly.

The Department of Health (1999) has also identified a number of key areas for practice, including: the need to develop a 'new paradigm' for the care of the elderly, the need to develop a 'new paradigm' for the care of the elderly, and the need to develop a 'new paradigm' for the care of the elderly. The Department of Health (1999) has also identified a number of key areas for practice, including: the need to develop a 'new paradigm' for the care of the elderly, the need to develop a 'new paradigm' for the care of the elderly, and the need to develop a 'new paradigm' for the care of the elderly.

The Department of Health (1999) has also identified a number of key areas for practice, including: the need to develop a 'new paradigm' for the care of the elderly, the need to develop a 'new paradigm' for the care of the elderly, and the need to develop a 'new paradigm' for the care of the elderly.
